ABOUT THE RUN

The 10.15 Project is powered by a team of runners who believe in using endurance to honor pregnancy and infant loss. Together, they will take part in a multi-day relay run across North Dakota connecting communities, carrying stories, and showing up with intention and heart. Each runner represents more than physical endurance. They carry remembrance, awareness, and hope, helping transform miles into meaningful connection. This is not a race. It is a shared journey.

REDEFINING LIFE AFTER LOSS

Funds raised support Haven, an organization that works to make a difference through love and loss by building a community of support for parents who have endured the tremendous loss of a child. Since 2017, Haven has served as a catalyst for change, driven by its founding mission of hope, healing, and support.

Haven is a compassionate nonprofit organization dedicated to supporting parents who have experienced the unimaginable loss of a baby through miscarriage, stillbirth, or early infant death. In the midst of profound grief, Haven creates a safe and caring space where parents can find community, comfort, and understanding alongside others who truly know what this journey feels like. Haven meets families with compassion, honor, and hope as they navigate life after loss. Every program is rooted in the belief that no parent should walk this path alone and that every life, no matter how brief, deserves to be remembered. By supporting this event, you are helping Haven continue its mission of providing vital resources, community connection, and heartfelt care to parents experiencing infant loss, bringing light to families in one of life's darkest moments.

Throughout The 10.15 Project, runners and supporters will raise funds to support Haven in a number of ways including, but not limited to, extending Haven's Healing Gift program to families in western North Dakota, restoring healing retreats for grieving mothers, and supporting a staff role dedicated to growing and sustaining this care.

Together, this ensures more families are met with support when and where they need it most.
